

# Social Media Marketing

## *Strengthen your Business English*

Do you have a Facebook and/or Twitter account? Why not learn how your favorite Social Media platforms can help you in business! This short course will develop business English terminology and target marketing skills used through social media. Each week we will focus on one of four systems: Facebook, Google+, Twitter, and Instagram. Learn about why and how, more and more businesses are using social media as a way to connect with their customers and expand their audiences and market share.

Each session we will view relevant vocabulary, learn about the platform, do some hands-on research, create strategies, and finish off with a recap of the content learned. This is a very interactive course so be ready to work in partners, groups, and have fun! Smart phones and tablets are welcomed in class.
