<b><u>Total</u></b>		<b><u>28 hrs</u></b>
Touristic & Cultural Trips	1. Kenting(2Days) 2. Taipei & Tamsui (Plus enterprise visit): 3days 3. Sun Moon Lake &Formosa Aboriginal culture Village	Two trips (6days)

## Kenting Beach Resort

Kenting in the south of Taiwan is quite a popular beach area and also a National Park of Taiwan. It is bordering on the tropical region of Taiwan with its banana trees, sugar cane and rice paddies. Good place to swim and dive.

## Taipei :

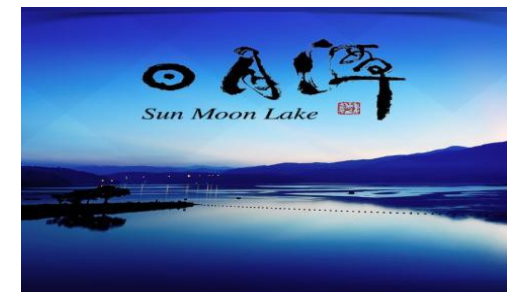

Taipei 101, formerly known as the Taipei World Financial Center, was completed on July 1, 2003. It is a landmark skyscraper in Taipei. The building ranked officially as the world's tallest from 2004 until the opening of the Burj Khalifa in Dubai in 2010.

Shilin night market is considered to be the largest and most famous in Taipei. Tamsui is a sea-side district in New Taipei City in northern Taiwan. It is named after the Tamsui River; the name means "fresh water". The town is popular as a site for viewing the sun setting into the Taiwan Strait.

## Trip to Sun Moon Lake:

Sun Moon Lake is the largest body of water in Taiwan as well as a tourist attraction. Situated in Nantou, the area around the Sun Moon Lake is home to the Thao tribe, one of aboriginal tribes in Taiwan. The east side of the lake resembles a sun while the west side resembles a moon, hence the name.

## Enterprise Visit (2): Acer Computer

Acer is a Taiwanese multinational hardware and electronics corporation headquartered in New Taipei City, Taiwan. Acer's products include inexpensive desktop and laptop PCs, tablet computers, servers, storage devices, displays, smart phones and peripherals. It also provides e-business services to businesses, governments and consumers. In 2012 Acer was the fourth largest personal computer vendor in the world.

## Enterprise Visit(1) :Central Taiwan Science Park

For CTSP, the youngest science park in Taiwan, there is infinite room and flexibility for development.

Besides listening to what the industries and the local people have to say, the CTSP will also take advantage of existing strengths such as the geographical location and the precision machinery industrial cluster in Central Taiwan to reach out domestically and internationally and differentiate from the Hsinchu Science Park and the Southern Taiwan Science Park in the future in order to attract more domestic and international high-tech manufacturers. The next step is to innovate and still innovate while at the same time to take care of the economy, the environment, combine innovative elements, create the industrial cluster effect, and encourage innovative business
